The August 12th session of the Coffee County Commissioners Court was conducted in the Elba Courthouse with Judge James L. Sawyer, Bennie Beckham, Don Smith, Byron Galloway, O. V. Waters, Flournoy Whitman and J. A. Dyess, Commissioners, attending. County Engineer O'Neal Ham and Edward Johnson, Clerk of the Commissioners attending. County Engineer O'Neal Ham and Edward Johnson, Clerk of the Commissioners were until the control of the construction. Ham explained that all roads and bridges in the county were slow being repaired and constructed due to the steel shortage in the nation. Steel workers are on strike and asphalt produces a by-product for gasoline, thus creating a shortage. The county had been discussed as such around the court's table. Several commissioners were until the community could be capable of such an act and she was appearing before the court in their defense. Judge Sawyer stated that the court was not interested in naming anyone as the guilty party and definately denied the fact that it had been discussed as such around the court's table. The new edition of your telephone directory is going to press soon. If you have only a single listing, a lot of people are going to have trouble looking up other members of your family. Certainly, your wife deserves her own listing.

And giving a teen-ager a place in the directory is a nice way of saying "You're growing up."

To add or change a listing just call our business office. They can tell you how little extra an additional listing will cost. It's as easy as picking up the phone.

When the Elba Tigers play their first home game on September 20th against Opp, the most noticeable change about Tiger Stadium will be the plush playing field.

Elba has been known for having the worst playing field in south Alabama. However, this year Tiger Stadium will boast perhaps the finest natural grass playing field in the state.

During the summer the entire Elba coaching staff have spent countless hours planting, fertilizing, watering, and cutting the new turf. For the first time in several years, the Tigers will be playing on goal to goal grass instead of a mixture of weeds and sand.

All football fans should tip their hats to the school board and the City of Elba for the financial backing, and also to the coaches for their efforts in making Tiger Stadium something to be proud of.

BLEED THROUGH

When the Elba Tigers play their first home game on September 20th against'Opp, the most noticeable change about Tiger Stadium will be the plush playing field.

In the past, Elba has been known for having the worst playing field in south Alabama. However, this year Tiger Stadium will boast perhaps the finest natural grass playing field in the state.

During the summer the entire Elba coaching staff have spent countless hours planting, fertilizing, watering, and cutting the new turf. For the first time in several years, the Tigers will be playing on goal to goal grass instead of a mixture of weeds and sand.

All football fans should tip their hats to the school board and the City of Elba for the financial backing, and also to the coaches for their efforts in making Tiger Stadium something to be proud of.
